

Opaline Light 153 153SBB

Budget Matte Backlight Polyester Film

Applications

- Lightboxes
- Backlit applications indoor and outdoor

Benefits

- Cost effective matte backlit material for front print
- Optimum day/night performance
- Fast dry for improved workflow
- Weather resistant for outdoor displays
- Antistatic treatment avoids attracting dust and slipping in the printer

Post Printing Information for Latex & Solvent Inks:

As with all filmic media, this product must be allowed to “gas-out” after printing. This can be achieved by leaving the prints face up, ideally 24 hours, to set and harden the unique scratch resistant properties. If unable to do this e.g. with a long print run, after printing the roll stand it vertically and loosely unwind as much as possible, to allow air in and gases out.

Recommended Conditions:

Printroom	59°F - 86°F 15°C - 30°C	30% - 65% RH
Usage	40°F - 176°F -40°C - 80°C	10% - 90% RH
Storage	50°F - 68°F 10°C - 20°C	20% - 50% RH
